Allowable Subject Matter

2. Claims 1 – 22 are allowed.

The following is an examiner’s statement of reasons for allowance: The primary reasons for allowance is that there cannot be ascertained prior art that anticipates or makes obvious the provisions of “providing an aircraft on a tarmac, placing an object between an inlet and said tarmac, said object having a height (w) ranging between approximately $(2h-D)/8$ and $(2h-D)/4$ ”, wherein airflow travels around, along and near said object to inhibit formation of a vortex, in combination with the other limitations presented in claims 1, 8, 12, 17, 18 and 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
